EDUCATION

Mechanical Engineering, B.E.

All India Shri Shivaji Memorial
Society's College of Engineering
August 2015 - June 2018

Mechanical Engineering, Diploma

Dr A D Shinde Institute of
Technology
July 2012 - June 2015

10th, S.S.C.

S. S. High School, Nesari
June 2011 - March 2012

TECHNICAL SKILLS

Java | Java EE | Hibernate |
Spring Boot | Spring Data JPA |
MySQL | RESTful APIs | HTML5 |
CSS3 | JavaScript | React | Git | AWS |
SDLC | Agile Methodology | Docker |
Kubernetes | Jenkins |
Microservices | Spring Security

INTERESTS

- Reading

ACHIEVEMENTS

- Rank 2 in BTech.,
All India Shri Shivaji Memorial
Society's College of Engineering,
Pune
- Got first place in Robotics
Championship.
IIT Mumbai
- Runner-up in Diploma.
Dr A D Shinde Institute of
Technology

PROFESSIONAL SUMMARY

Dynamic Full Stack Java Developer skilled in Java and ReactJS stack. Proficient in creating efficient server-side APIs with Spring boot and along with developing robust frontend components using React.js. Adept at utilizing Generative AI and rapidly learning new technologies to enhance productivity.

PROJECTS

1. Blog Management System |

spring boot | Spring Security | React | RESTful APIs | CSS3 | HTML5 | JavaScript |
JWT Authentication | Hibernate | Spring Data JPA | MySQL

- Designed and implemented a full-featured Blog Management System using React for the frontend, ensuring a robust user experience.
- Developed RESTful APIs using Spring Boot for efficient server-side operations and data management.
- Integrated MySQL with Hibernate and Spring Data JPA for effective and reliable database interactions.
- Implemented user authentication and authorization using Spring Security and JWT to secure the platform.
- Built and optimized frontend components with CSS3, HTML5, and JavaScript for seamless performance and usability.

2. Grofers - E-Commerce |

RESTful APIs | Spring Boot | Hibernate | MySQL | Spring Data JPA |
Spring Security | JWT Authentication | React | HTML5 | JavaScript

- Developed a comprehensive e-commerce platform using React.js for frontend, enhancing user experience with dynamic UI components.
- Implemented robust backend APIs using Spring Boot and Hibernate to handle product management and order processing.
- Ensured secure user authentication and role-based authorization with Spring Security and JWT, protecting user and admin data.
- Designed and optimized MySQL database schemas and queries to manage product information and user orders efficiently.

WORK EXPERIENCE

POTNIS INDIA, Andheri (E), Mumbai

Jr. Design Engineer (Non-IT) | July 2018 - June 2021

Job responsibilities:

- Coordinated with a team of 20 workers to ensure timely project completion, demonstrating strong leadership and collaboration skills.
- Maintained and designed kitchen equipment, showcasing attention to detail and adherence to industry standards.
- Effectively managed project timelines and communicated with various stakeholders to ensure project goals were met.
- Enhanced team efficiency by implementing streamlined processes and clear communication channels.
